Poland Not Going Bankrupt and Is Thankful to America for Loan.

By IGNACE PADEREWSKI, Polish Leader.

All Poles are exceedingly glad that Poland has obtained the long wished for loan of \$250,000,000, equivalent to 14,000,000,000 Polish marks. For some time to come Polish finances will be in a bad way. But we are not going bankrupt, and America will never regret having lent us money in our hour of

Our position since the beginning of the war has been very difficult. We were devastated by the Germans, who advanced, and the Russians, in retreat; nevertheless 80 per cent of our land is under cultivation again. We had a hard winter, owing to early frosts, which destroyed the potato and beet crops all through the winter. The fact is that we 3). He restores our souls. The rest | shall be dependent on America for food for some time to come.

propaganda, but the peasants don't want it. We have had to build up stores the spiritual life by the feeding | the country's internal administration from A to Z and at the same time fight the bolsheviki. But I hope we shall soon be able to set about reconstructing our country quietly.

Our most urgent need is transport. We have nothing like the necessary number of trains and engines. And the war with the bolsheviki has absorbed much rolling stock for the supplies of our army which could well be employed in carrying coal from our mines to the large industria centers. Though the winter was very severe indeed, many thousands o us had no coal at all, not because of the lack of it at the pits' mouths, bu for sheer lack of transport. We hope to get some more new machine from America and be able to build and import trucks before long.

America must remember that we are still at war, and this impedes our exports. On the other hand, neither France nor Italy is exporting and we have been more hit by the war than either of them in the matter of devastation. But we have enough timber to bring in \$3,000,000,000 under the shepherd's rod was the sign and shall soon begin to export that. We have plenty of coal, salt, potash and petrol for export as well. All we want is the means of transporting

A country with such resources in raw material and with the will to work will not go bankrupt. In metals and coal and timber we are very rich, and we want to work. We want to organize our country and make it strong and prosperous. We have terrible sufferings behind us and many thousands of us are suffering yet. But, though we face great difficulties now and in the near future, we mean to pull through, pay all our debts and plotting and scheming, the mighty get onto our feet again as a thoroughly modern democratic state.

All Poles are united in their confidence in our president of the republic, Mr. Pilsudski. When he was first elected, the older men and conservatives said he would not do, and he was almost entirely supported by the | Complete House Bills Our Specialty young men. But a year of office has shown old and young alike that he is 5). Oil is a symbol of joy. There the man for the country, and so all support his policy and confide in his

> Hence the "Save the Redwoods League" for the Redwoods National Park.

> > By MADISON GRANT, in Zoological Society Bulletin

The fundamental tragedy of the whole redwood situation lies in the fact that these great trees are nearly all in the hands of private owners who can not reasonably be expected to sacrifice their holdings for public benefit. The state and nation, however foolish they may have been in giving these lands, must now buy back at least a large portion of them. It is scarcely necessary to dwell on the crime involved in the destruc-

tion of the oldest and tallest trees on earth. The cutting of a Sequoia for grape-stakes or railroad-ties (and an eighteeen-foot tree was cut this summer for that purpose along the new state highway) is like breaking up one's grandfather's clock for kindling to save the trouble of splitting logs at the woodpile, or lighting one's pipe with a Greek manuscript to save the trouble of reaching for the matches.

It will cost money to preserve the redwoods-many millions; but California has no choice. Either the amount needed to save the groves must be supplied today, or else a far greater sum will be required ten years hence to purchase a butchered and isolated tenth part of the forests. Those are the only alternatives. If the groves are bought in their present condition and at relatively small cost, it will be a great innovation because heretofore Americans have followed the wasteful policy of recklessly exploiting wild life, forests, and streams, and then as soon as the destruction is complete, the policy is changed, game is reintroduced, and attempts are There are two ways of an made to reforest the mountains at vast cost. But redwoods never can be

> "Japan Must Be Made the Mightiest Nation in the Whole World."

> > By W. M. McGOVERN, in "Modern Japan."

Japan must be made the mightiest nation in the world, is the idea nculcated through textbooks in the minds of all Japanese. Extensive nationalism is the predominant feature of Japanese life, and this nationalism far transcends all party divisions. There is military instruction in all schools and rifle practice is taught

in the secondary and higher schools, so the average middle schoolboy would make without further training a most excellent soldier.
